Cloud Hosting - Have access to your practice management system from anywhere in the world

Electronic Remittance Advices - **GoodX** automatically reconciles remittance advices to streamline your entire practice management process

“ We would just like to compliment **GoodX** for the outstanding service. We have been clients for quite some time and we can definitely see the improvements over the years. We would also just like to thank the teams in the client support centre for the outstanding service we get every time we phone. Looking forward to the years ahead and all the improvements we can still expect. ”

~ Dr Ian Erasmus (Dentist & National Former President of the South African Dental Association)

About GoodX Software

Over the last 25 years, **GoodX** has become one of the market leaders in the development of tailored medical and practice management software in the South African market.

Dr Dirkie Wolvaardt founded **GoodX** in 1985 and years of experience, continuous research and development has culminated in a product that is used and trusted by practitioners and medical administrators all over Southern Africa.

“ We have evaluated a large number of medical practice management applications and **GoodX** turns out number one. Their multi-discipline approach and quick adoption of new industry standards keep them ahead of the pack. Keep up the good work, we look forward to a successful future together. ”

~ Dr Hendrik Hanekom, CEO - Intercare Managed Healthcare (Pty) Ltd
