The Integrated Financial Solution for Your Hospital

For a **GoodX**perience in Software and Switching

GoodX is a fully integrated Hospital Management and Accounting system designed for day hospitals, acute hospitals, and subacute hospitals.

The **GoodX** hospital management software facilitates the hospital management process from beginning to end, including a pharmacy management system and bed management system. **GoodX** hosts a central database for enhanced patient care, debtor and case management, as well as financial and stock management. We also offer full use of our Cloud services, by giving you access to your records from any place, any time, and most devices.

The GoodX system is based on true financial principles and includes the following:

- ✓ Patient scheduling / theatre bookings
- ✓ Pre-admissions
- ✓ Billing and coding
- ✓ Case management
- ✓ Stock management
- ✓ Electronic claims processing system
- ✓ Credit control
- ✓ GoodX SMSs
- ✓ Creditors / supplier management
- ✓ Fully integrated accounting package
- ✓ Patient clinical history and treatment notes
- ✓ Generate 100+ different reports

HOSPITAL PATIENT ADMINISTRATION

(wheel diagram labels: FILING & STORAGE OF PATIENT FILES, BOOKINGS, AUTHORISATION & CONFIRMATION, PRE-ADMISSION, ADMISSION, CO-PAYMENTS DEPOSITS, BILLING, BED PLACEMENT, DISCHARGE, FINALISE CASE, CLAIM ADMINISTRATION, ACCOUNT MANAGEMENT, DEBT MANAGEMENT, MANAGEMENT REPORTS)

Over the last 25 years, **GoodX** has become one of the market leaders in the development of tailored medical and practice management software in the South African market.

Dr Dirkie Wolvaardt founded **GoodX** in 1985 and years of experience, continuous research and development has culminated in a product that is used and trusted by practitioners and medical administrators all over Southern Africa.

The **GoodXWeb** module adds:

- ✓ Bed management
- ✓ Linen management
- ✓ Kitchen management
- ✓ Meal ordering
- ✓ Recurring services
- ✓ Patient health
- ✓ Cleaning & maintenance
